BY THERMAL TECHNOLOGY

SUPERMOTO

Termocoperte costruite con caratteristiche curate in ogni minimo dettaglio, per la specialità del supermotard. Realizzate dal migliore produttore sul mercato, sono presenti nei più rinominati campionati nazionali mondiali.

/ Tyrewarmers built with features with attention to every detail, for the supermotard specialty. Made by the best manufacturer on the market, it is present in the most renowned national and world championships.

Temperatura controllata elettronicamente dalla centralina inserita sul tirante. Permette la regolazione su tre livelli pre-impostati, 45° / 75° / 85°C con led indicatore e tasto per la selezione. Il tracciato elettrico è disposto in modo trasversale e longitudinale, garantendo così una diffusione uniforme della temperatura su tutto il pneumatico. Inoltre è stato migliorato il riscaldamento della spalla del pneumatico.

/ Temperature controlled electronically by the control unit inserted on the tie rod. Allows adjustment on three pre-set levels, 45° / 75° / 85°C with LED indicator and selection button. The electrical layout is arranged transversely and longitudinally, thus ensuring uniform temperature diffusion over the entire tire. In addition, the heating of the tire shoulder has been improved.

CARATTERISTICHE / FEATURES

- Controllo digitale della temperatura / Digital temperature control
- 3 set di temperatura preimpostati 45° / 75° / 85°C / 3 preset temperature sets 45° / 75° / 85°C
- Riscaldamento spalla migliorato / Improved shoulder warm-up
- Disposizione serpentina trasversale e longitudinale / Transverse and longitudinal serpentine arrangement
- Adatta al pneumatico misura 160 / Suitable for tire size 160
